Conference Focus

The International Conference on Global Research and Education INTER-ACADEMIA was initiated in Bratislava, Slovakia, in 2002 where the participants decided to organize it in the future as a regular annual event. The success of the further meetings strengthened us in continuing the tradition according to which INTERACADEMIA'2008 is planned to offer a possibility for university professors and scientific communities to exchange ideas and experiences of mutual interest in the fields of research, education programs, and experiences in training of students. This year the Conference will have a special emphasis on new methods in education, covering fields such as e-learning, internet based education, double degree programs, joined programs, cooperative programs, new techniques in practical education, introducing novel research fields to education, etc. INTERACADEMIA'2008 is also devoted to present the state-of-the-art and recent results of the participants in the main research fields of the community, to improve mutual understanding of the participants, to introduce the participant's local research communities and their main research partners, and to contribute to new theoretical and practical achievements in the fields, and to help in attaining and developing new trends and recent techniques of education.

Conference Topics

- Intelligent and traditional systems in electrical, mechanical, chemical and transport engineering
- Theory and practice of intelligent and soft computing techniques
- Modeling, design, identification, diagnostics, measurement, and control
- Multimedia techniques
- Plasma physics
- Material science and technology
- Bio- and environmental engineering
- Photonic and electronic devices, thin film growth
- Internet based education, distance learning
- E-learning techniques and education materials.

Call for papers

Prospective authors should submit one electronic copy of an extended abstract (min. 3 pages) or a draft of the paper, including the summary of accomplishments, the significance of the contribution, and a list of references.
